ARCHITECTURE MEETS Jazz

its cool, its hot, its hip, its back!

THIS TIME BESIDE THE SEA

Dave O'Higgins

and his Biggish Band

Now in its fifth year, this event goes from strength to strength taking place, this year, at two venues.

The first event takes place at The Engine Shed at the University of Lincoln on 20th June and the second at the Embassy Centre, Skegness in early October 2009.

Dave is one of the UK's outstanding saxophonists and he is bringing his amazing septet boosted by three very special guests from Brazil who will be adding accordian, percussion and vocals for an evening of bluesy, groovy jazz with authentic Brazilian influences and a high octane dance floor finale.

JAZZCOTECH DANCERS

The busiest and most versatile jazz dance group in the UK who specialise in the untapped Art form of Old Skool Jazz Dance. The modern rhythms of Funk, Brazilian, Latin and Afro-Cuban fuel these acrobatic dancers into performing a breathtaking mix of fast, intricate footwork, spins and floor moves.

Seeing is believing.

HODSON ARCHITECTS

Jo and Mark Hodson lead an Award winning architectural practice in nearby Cleethorpes with green design at its heart. Aiming to enrich the environment and the lives of the people through quality architecture, they design to delight whilst creating sustainable solutions fit for our changing world. Come and hear insights about the crafting of architecture, the virtuous circle of green design and the role of lego in building for the YMCA!

JAZZ VEHICLE

Following some intensive workshops with **Dave O'Higgins**, expect Lincolnshire's marvellous Youth Jazz Orchestra to give another outstanding performance, supported, as always, by their Musical Director, **John Crouch**.

PRIMARY SCHOOLS

See the displays and models of the work produced by Pupils from 9 Primary School groups from around Lincolnshire. They have researched and designed a house for the future specifically to be sited in an area of the County threatened with rising sea levels. Their work has been mentored by Architects and Students from the University of Lincoln.

VENUE - THE ENGINE SHED 20 June 2009

Experience the state-of-the-art Engine Shed venue, an RIBA EM award-winning building, which is part of the student union facilities at the University of Lincoln. The building boasts a large auditorium space and a number of bars, and is easily approached either on foot from the city centre via the new pedestrian bridge over the River Witham, or from the large Boulevard car park, which is free to use and can be accessed from the Ropewalk.
